

Response to Request for Information

Reference FOI 003468
Date 15 April 2019

ANPR Cameras

Request:

Can you advise as to the cost of providing x1 ANPR Camera upon a Bus lane in Wolverhampton? This would be the unit cost and separate cost for installation.

Equipment and installation cost - £24,000 (Quote and invoice grouped both charges)

Annual maintenance cost - £6,500

Annual data communications cost - £600

What is the cost of processing a single ANPR offence?

The progression of a single ANPR offence, Penalty Charge Notice (PCN) case can follow numerous routes through the legal process before the case is either paid in full or closed. The path that a PCN case may follow will influence the time required to investigate and levels of administration necessary to action any number of legal stages and as such may also incur several additional agency costs.

Therefore, I am unable to quantify the cost for processing a single ANPR offence, Penalty Charge Notice (PCN) case.
