Subject: Further Damage from 45 Springhill Road, WV11 3AW

Please find attached image for your attention, due to the state of next door still not being looked after by anyone and the problems next door not being fixed rain has now started pouring into that property and has caused damage to the inside of their walls which has now caused damage to our walls causing our utility to flood as well as their own.

I understand that the process is 2 years for Courts but I thought I'd send you this as you said to send any images. I'm hoping this will help speed the process up because it's fair on us living in this property have to accept damage because of next door.
