#### **Interested in Allotment Gardening**

There are many benefits to having an allotment such as healthy exercise, fresh air, making new friends and of course the pleasure of growing and eating your own organic fruit and vegetables.

Allotments can also be a great place to relax and unwind providing a peaceful escape from the intrusions of modern life.

### Allotments – Did you know

Due to rapid industrialisation in the Nineteenth Century, the Small Holdings and Allotments Act (1908) was introduced making it the duty of the local authorities to provide sufficient allotments based on demand, however land was not widely made available until after the end of the First World War when returning service men also became eligible.

The popularity of allotments can be seen to grow in times of recession when people look to cheaper sources of food, at its height there were believed to be over 1.5million allotment plots across the UK whereas today that number is estimated to be around 330,000.

Today the need for space to grow your own and possibly experience the simpler side of life has reignited the call for more allotments.

There are 1,100 plots for rent on 31 sites located around Wolverhampton, with some allotments sites even having small gardening shops. For more information on Allotment Gardening in Wolverhampton call:
