**2022-2025 Pharmaceutical Needs Assessment (PNA): Supplementary Statement**

This supplementary statement serves as an update to the original PNA published on the 23<sup>rd</sup> September 2022, following changes to pharmaceutical provision since the publication of the PNA. Due to the scale of changes, it was deemed that producing another PNA would be a disproportionate response to these changes, given a full update of the PNA is due in 2025.
