

## Response to Request for Information

Reference EIR 000049  
Date 1 June 2016

### **CON29 – Sustainable Drainage Systems (SuDS)**

**Request:**

“I refer to the Upcoming changes to the CON29 which are to be implemented by July 2016 that will now include a section on Drainage matters: Sustainable Drainage Systems (SuDS).

Can you please advise how the Council intends to provide access to Information to answer the following questions:

Is the property served by a sustainable urban drainage system (SuDS)?  
Are there SuDS features within the boundary of the property?  
If the property benefits from a SuDS for which there is a charge, who bills the property for the surface water drainage?

Please also provide the contact details of the Department that will be responsible for providing the above information. If the above information is to be made available online, please provide the relevant section on the council website.

We confirm that the enquiry regarding Drainage matters, in particular Sustainable Drainage Systems, is part of the new CON29 form, being question 3.3, a, b and c, when introduced on 4 July.

The Council will provide the follow response to those questions:-

3.3 a – SuDs are not actively recorded by this authority and therefore we are unable to confirm if the property is served by a sustainable drainage system.

3.3 b – SuDs are not actively recorded by this authority therefore if one is present we are unable to confirm who is responsible for maintenance of the sustainable urban drainage system.

3.3 c – SuDs are not actively recorded by this authority therefore if one is present and charges apply we cannot confirm who bills the property for the surface water charge.

Please note if you wish to view planning applications this can be done through planning online at <http://www.wolverhampton.gov.uk/planningapplications> or you may wish to contact Severn Trent Water on 01902 793871”
