Grant Money Available for Contaminated Land

Request:

I would like to be pointed in the right direction as to the percentage of grant money that is available for the correction of contaminated land i.e. would 100% of the cost of the works carried out be covered by the grant? The project states that grants that Wolverhampton and Local Authority grants for development are available but I am struggling to find the information I require. Also can you please confirm that any applications are made through the Government portal?

With reference to your above request and also your assignment brief that you provided to us, the Council are of the opinion that the grants referred to in the question are fictional, and do not represent any grants currently on offer by the local authority.
