

## Response to Request for Information

**Reference** EIR 000164  
**Date** 21 August 2017

### ***Fly-tipping***

#### **Request:**

Thank you for your request for information about the above, which we received on 21<sup>st</sup> August 2017. We are treating this as a request for information under the Environmental Information Regulations 2004.

Please would you provide me with a list of all incidences of fly-tipping in 2015/16 and 2016/17.

For each record, please state:

- a) an address, postcode or location data (e.g. lat/long pair)
- b) a description of the type of rubbish dumped
- c) the date it was reported or located (whichever is easier for you to provide)

Please could you also indicate if possible whether the locations in a) are in a National Park or Area of Outstanding Natural Beauty.

I would like this information to be provided as a soft copy spreadsheet (.xls) format.

Please find attached tables to answer the questions above.

Please note: info from PP, excel marked with PP, database does not contain details of the type of rubbish dumped as the information is not recorded in this manner and to determine what information was present would involve searching each individual record which would take in excess of the cut off time. The ES and PP tables may contain an element of double counting as they are separate systems to record different information for different service areas.
