

Response to Request for Information

Reference EIR 000206
Date 30 January 2018

Contamination of Properties

Request:

Please can you tell me the cause of the contamination for the properties within Farndale Avenue (i.e is this due to historic industrial usage/recent spillage of contamination etc)?

Wolverhampton City Council can confirm that the source of the asbestos that caused the contamination at the properties is believed to have originated from the factory that was located on the site prior to the building of the houses in the early 1970s.
