Refuse Collection

Request:

Hi, would it be possible to get information about your household refuse collection general waste please.

The information I require is how many properties on average does one refuse team collect from per day?

In response to the FOI request, the general waste collection for the City of Wolverhampton currently covers around 108,000 properties visited weekly by one of 15 crews who cover different geographic locations within the City.

Each crew visit on average 7,200 properties per week or 1,440 properties per day (based on a 5-day working week). Additional crews collect the dry-recycling and garden waste for the City.
