Housing Lists

Request:

I would like to know how long is the current waiting list for a council property and also how many empty properties are on current housing stock list.

As at 01.08.15 there were 9423 applicants on the housing register. We are unable to advise how long somebody will have to wait on the said list for as this depends on a number of factors including their circumstances which define the banding they sit in, the property type and size for which they are eligible for, and how often they 'bid' on properties from the weekly list advertised.

As at 21.08.15 there were 296 Wolverhampton City Council properties empty.
