Parking Meters

Request:

How many parking meters and pay and display machines are there in Wolverhampton?

Of these, how many do not give change?

In Wolverhampton we have 47 Pay and Display machines on-Street and 29 Pay and Display off- Street (on car parks)

A total of 76. None of these Pay and Display machines give change. However, we do provide Pay by phone parking on all of the Off-Street parking facilities.

In addition Wolverhampton has 1 Pay on Exit car park at the Civic Centre that takes card payments and also gives change.
