2014-15	Oxley Moor Rd	n Wolverhampton

Unfortunately we are unable to provide you with start and end dates for road works as information is not held in an easily retrievable format and to do so would require us to manually check a high volume of records which would take us over 18 hours to compile as we do not hold the information electronically. We therefore believe that Section 12 of the Freedom of Information Act 200 is engaged.

Section 12 of the FOI exempts Public Authorities from providing information where the estimated cost of compliance exceeds the appropriate limit. Any estimate must be undertaken in accordance with the limits set in fees regulations made under Section 12 (5) of the FOI.

These Fees Regulations (SI 2004/3244 Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations) allow for a refusal where the cost of

compliance, for local authorities such as the Council, would exceed £450. As a guide, staff time to identify and extract this information is charged at a rate of £25 per hour (18 hours).

In estimating the cost of complying with a request for information, an authority can only take into account any reasonable costs incurred in:

- “(a) determining whether it holds the information,*
- (b) locating the information, or a document which may contain the information,*
- (c) retrieving the information, or a document which may contain the information,*
and
- (d) extracting the information from a document containing it”.*

Unfortunately we are unable to provide you with information relating to the year 2010 and also the start and end dates for repairs and maintenance as information is not held in an easily retrievable format and to do so would require us to manually check a high volume of records which would take us over 18 hours to compile as we do not hold the information electronically. We therefore believe that Section 12 of the Freedom of Information Act 200 is engaged.

Section 12 of the FOI exempts Public Authorities from providing information where the estimated cost of compliance exceeds the appropriate limit. Any estimate must be undertaken in accordance with the limits set in fees regulations made under Section 12 (5) of the FOI.

These Fees Regulations (SI 2004/3244 Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations) allow for a refusal where the cost of compliance, for local authorities such as the Council, would exceed £450. As a guide, staff time to identify and extract this information is charged at a rate of £25 per hour (18 hours).

In estimating the cost of complying with a request for information, an authority can only take into account any reasonable costs incurred in:

- “(a) determining whether it holds the information,
- (b) locating the information, or a document which may contain the information,
- (c) retrieving the information, or a document which may contain the information, and
- (d) extracting the information from a document containing it”.

4. Any commercial property newly built since 2010 including full address of site location and time periods. Please include company name and property description of the occupiers.

In respect of your above question, it has been established after careful consideration that the Council does not hold the above information. Consequently, we are unable to provide any information relating to the above, and are informing you as required by Section 1(1) (a) of the Act, that states:

"Any person making a request for information to a public authority is entitled to be informed in writing by the public authority whether it holds information of the description specified in the request".
